| Freelance Full Stack Developer
<i>Freelance</i> | Jan 2025 – Present
<i>Remote</i> |
| <ul style="list-style-type: none">Develop full-stack web applications using Next.js, React, Node.js, Express.js, and modern database technologies.Build responsive and production-oriented interfaces with TypeScript and Tailwind CSS while focusing on usability and performance.Design and integrate REST APIs, authentication systems, database models, and third-party services for real-world applications.Collaborate with designers and project stakeholders to transform requirements into maintainable software solutions. | |

Selected Projects

- | | |
|---|-------------------|
| Full Stack E-Commerce & Job Matching Platform
<i>E-commerce and job matching platform built with Next.js, TypeScript, PostgreSQL, Spring Boot, and Cloudinary.</i> | Next.js |
| <ul style="list-style-type: none">Developed a modern full-stack platform combining e-commerce workflows with job matching functionality.Focused on responsive design, maintainable frontend architecture, API integration, and smooth user experience. | |
| Social Media Platform
<i>Full-stack social platform with authentication, user profiles, and interactive features.</i> | MERN Stack |
| <ul style="list-style-type: none">Built the application using React, Node.js, Express.js, MongoDB, and TypeScript.Implemented authentication, user management, API integration, and responsive frontend components.GitHub Repository | |
| Library Management System API
<i>Backend API focused on structured architecture, authentication, testing, and caching.</i> | NestJS |
| <ul style="list-style-type: none">Developed RESTful backend services using NestJS, TypeScript, JWT authentication, Redis, and Jest.Applied modular backend architecture and separated business logic from infrastructure concerns.GitHub Repository | |

- Built the frontend with React, TypeScript, Tailwind CSS, and Framer Motion.
- Designed reusable components and responsive layouts with a focus on clean UX.
- [GitHub Repository](#)

- Developed the application using Next.js, PostgreSQL, and Drizzle ORM.
- Implemented a responsive interface and structured database integration.
- [GitHub Repository](#)

Achievements

- Won first place in a hackathon and qualified for the next stage, representing Mila in the following round.

- Worked as part of a team that placed 4th out of 11 teams and 2nd in the E-Tourism track with a smart hiking platform.

Education

Additional Skills

Soft Skills: Public Speaking, Mentoring, Teamwork, Communication, Rapid Self-Learning

Other: AI & Python Fundamentals, Machine Learning Fundamentals, SEO

Languages: Arabic (Native), English (Conversational)
